As a Reiki practitioner, I found it was both simple and practical to the understanding of Tantra. When I found this book, I could understand the energy of being in touch with your sexuality and becoming more alive." ~Allison Reynolds "When you read this book, you'll be excited to learn new things! Tantric meditation has been around for centuries, but it's been hidden from the public eye. When you read this book, you'll understand why tantra was hidden from the public eye." ~The Mystic Life Group "In all my readings and classes about the tantra practice, I was disappointed to find such a small number of massage techniques available to readers. That's why I contacted [SexandSoul] and was so excited to find so much information in this book. I feel that readers will understand the nuances of the massage techniques and how to practice them in order to experience greater pleasure during sexual activity. This book is a pleasure to read and offers much for those interested in discovering the secrets of Tantra." ~Tantra Publications >Sex & Soul Book Guarantee: I do stand behind what I say, so if you are not 100% satisfied after reading the book, I will refund 100% of the purchase price, no questions asked. If you would like to learn more about the tantric massage techniques and the benefits of being alive 82157476af
